

Store your grain effectively with the right solution

Greenhouse Technologies offers our clients so much more than just high quality greenhouse plastic, coir, irrigation and peat. Our world-class product offering have expanded to now include efficient, flexible and cost-effective grain storage solutions.

We have the right solution for your on-demand grain storage needs. Our experience and our customer-centric service, coupled with top-notch storage products, like silo bags, silage film, bale netting and wrapping, is what makes us the perfect agri-tech partner to grow your business.

Silo Bags

Our Politiv Silo Bags offers an excellent solution for storing grains such as Wheat, Barley, Sorghum, Maize, Soybean and more.

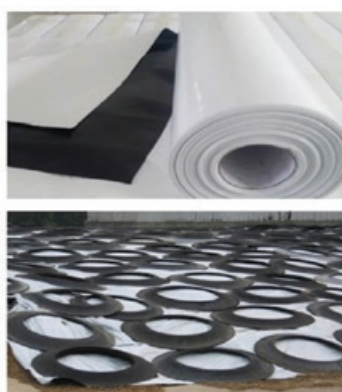

Grain bags	9ft x 60m x 230mic
	9ft x 120m x 230mic

Silage bags	10ft x 60m x 230mic
	10ft x 90m x 230mic
	10ft x 120m x 230mic
	12ft x 90m x 240mic
	12ft x 120m x 240mic

IMPORTED STORAGE FILM, SILAGE, BAGS & NETS

Silage Film

We offer a wide range silage films in widths of 6m to 18m. These films are made of 3-layer structure, black on one side and white on the other, the product is used with the white side up and the black side down for the purpose of preventing solar overheating.

- Sizes: 6m, 8m, 10m, 16m and 18m wide.
- The common thicknesses used is 150 & 250 microns with UV stabilisation.

Bale Wrap

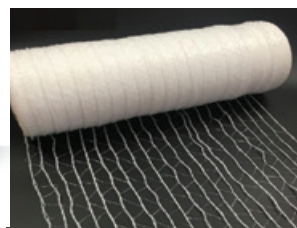

Plastic wrapping used for the purpose of wrapping silage and hay bales. Bale Wrap create a condition for proper fermentation and longer-term storage.

Size: 750mm x 2000m x 25 microns
Lifespan: 6–24-month lifespan
Colour: White
Temp: 30° – 40° C
Technology: 5 Layers Co-Extrusion Blown Lines

Features: High UV Protection, Excellent Oxygen Barrier, High Puncture & Tear resistance.

Bale Net

Plastic bale net is popularly used for the wrapping of round straw or hay bales. Bale netting can help in increasing productivity, reducing crop losses, and easing transport.

- Width(m) 1.23 x 3600m
- Width(m) 1.25 x 3600m
- Length(m) 3600m
- Density Roll 8.5g/m2
